Project Comptroller

133307:

Storage of Edgioment

THE SHOE:

Strached Memorandum with enclosures from Deputy Director of Security dated 24 July

1956.

- l. Investigation into the delay in claiming the electronic test equipment covered by Air Bill No. 16-DCA-13097 indicates a weakness in the system used to alert consigness. Evidence of this is contained in (IN 03522), wherein it states. "Confusion over procedure caused error SOP now established."
- 2. Previously movements of this kind involved a word of mouth passing of information through several people which included long distance telephone. In the future, information will be passed to consignee by cable.
